

The World's First Online SMART Board Course for Teachers

Mrs. Blossom's Online Applied SMART Board Course is the professional development opportunity you have been asking for.

Changing the way teachers use a SMART Board™

We believe this online SMART Board course is by far the most important evolution of classroom technology since the creation of the SMART Board itself. Mrs. Blossom and Blossom Learning will change the way teachers learn how to use a SMART Board.

Created by teachers for teachers, InfoCor is excited to be a reseller of this product, which uses real life classroom examples.

Fully Comprehensive—From Beginner to Advanced in 8 Chapters

Make no mistake. This is a fully comprehensive course with 8 full Chapters, end of chapter quizzes and a personal certificate awarded for achieving over 80% in every chapter—so you have a worthwhile certificate afterwards. It's a great "refresher" course during the summer months too!

Geographically Independent—no need to leave your classroom

Being "ONLINE", the course is geographically independent and can be taken at your own pace and speed. And you won't even need to leave your classroom, disrupt staff schedules, or get substitute teachers!

Regular price \$95, Introductory price \$69.95

Convenient, comprehensive and best of all—affordable.

The course was developed to be within the reach of even the most budget conscious school at only \$69.95.
