

## Workshop Descriptions

### Intro to SMART Notebook™ 10 software

This is designed for both the beginning SMART Board user and the teacher who has been using the SMART Board for a while. You will learn the basic operation of the SMART Board and its software using a hands-on approach. Topics included in this course are the SMART Tools, Floating Tool, SMART Aware software, Notebook™ software 10 and online SMART Board resources. All content is presented with applications that demonstrate how the SMART Board enhances everyday teaching in the classroom.

### Advanced Users for SMART Notebook™ 10 software

This advanced workshop is intended for teachers who have previously attended the Introduction to SMART Notebook™ software 10. The focus of the workshop is developing SMART Notebook activities for use in the classroom to enhance student learning. You will be given techniques to effectively add structure, organization, style, interactivity and rich media to your lessons. All skills will be presented with applications to the classroom. In addition, you will be given time to create lessons for use in your classroom. You will need a laptop with Notebook software 10 preloaded on your computer for this session.

### Earn College Credit

InfoCor offers a (1) credit course through Cardinal Stritch University. Inquire within for cost and syllabus information.

### SMART Response (formerly Senteo)

SMART Response helps teachers gain accurate and immediate insight into student learning while increasing comprehension, retention and engagement. In this session, you will learn the benefits of using a hand held response pad in the classroom while working through the lessons. You will see firsthand how easy it is to integrate this tool into your class activities and get immediate feedback from your students. Prerequisites for this class are knowledge of Notebook™ software 10.

### On-Site Training

One of the many offerings InfoCor can also provide you is on-site training at your school location of choice. We offer both Introductory and Advanced levels and each session can be tailored to meet the needs of your educators. Typically these sessions are conducted on an **“in-service day”** at your school giving you the opportunity and flexibility to utilize your own SMART Boards and work in a comfortable and familiar setting. **(Inquire within for more information.)**

#### **Benefits to On-Site training include:**

- ◆ No need for a substitute teacher
- ◆ Use of your own SMART boards
- ◆ Work on your own lesson plans
- ◆ No traveling required
- ◆ Taught by a SMART certified expert
- ◆ Credit courses available
- ◆ A minimum of 10 or more in attendance is required
