

Testimonial from Kevin Messman – Technology Coordinator at the School District of New Berlin

“We started working with InfoCor three years ago and it is one of the better decisions I have made. Prior to InfoCor, we were working with a SMART Board™ reseller who was not proactive and did not provide the level of service we desired. After a chance encounter with Cheryl Anderson, I made a point of learning more about InfoCor and ultimately signed on with them.

InfoCor is a partner in the true sense of the word. If we have a technical question, I can call or email and they get things taken care of right away. They are a full service, full solution company and we can get everything we need from InfoCor.

They are prompt, very professional and as we continue to learn about the equipment, InfoCor is always right there to help. In fact, they even help us learn about equipment we did not purchase from them.

Sometimes our timelines require a really quick turnaround and InfoCor always delivers. So, when we need something sooner than later, they always get us what we need. Their customer service and product knowledge are great”
